This document relates to:

Ashton, et al. v. al Qaeda Islamic Army, et al., 02-cv-6977 (GBD)(SN)

DECLARATION OF PLAINTIFF SUSAN SLIWAK
IN SUPPORT OF APPLICATION FOR A FINAL JUDGMENT AGAINST TALIBAN
AND MUHAMMAD OMAR

Susan M. Sliwak, pursuant to 28 U.S.C. § 1746, declares under the penalty of perjury under the laws of the United States of America, that the following is true and correct:

1. I am the court-appointed personal representative of the Estate of Robert F. Sliwak, who perished at the World Trade Center as a result of the terrorist attacks on September 11, 2001.
2. I submit this Declaration on my own behalf as the spouse of Robert F. Sliwak and on behalf of the only other New York State designated “heirs” of my late husband, our three children: Ryan M. Sliwak, Kyle J. Sliwak, and Nicole T. Sliwak.
3. I can affirm to the Court that my deceased husband lived with me and my three children at a private home at 1653 Hannington Avenue, Wantagh, New York 11793 at the time of his death. I can further affirm that my children and I were the only “immediate family members” living with my husband and that no other family member lived with us (or was dependent on my husband — financially or emotionally) at the time of his death.

4. Finally, I can affirm that the death of my husband affected us not only in the days following his death, but our emotional and financial condition continues to be adversely affected by his death even up and through the present day.

5. For the foregoing reasons, I ask that the Court deem my children and me as the only “immediate family members” of Robert F. Sliwak and enter a default judgment award in the amounts requested by our attorney (and economist).

Dated: New York, New York
December 12, 2019

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Susan M. Sliwak

Expert Testimony

December 16, 2019

Mr. John F. Schutty
Attorney
Law Office of John F. Schutty, P.C.
445 Park Avenue, 9th Floor
New York, NY 10022

Re: Robert Sliwak Economic Loss

Dear Mr. Schutty:

At your request, I have conducted an analysis of Robert Sliwak's economic loss following his death on September 11, 2001. Mr. Sliwak's economic loss includes the values of his lost earnings capacity and household services. The documents that I reviewed while conducting my analysis are shown in the attached Exhibit 1. Secondary data sources that I relied upon are cited elsewhere in this opinion letter.

Mr. Sliwak was born on October 26, 1958. He was a college graduate. At the time of his death on September 11, 2001, Mr. Sliwak had a worklife expectancy of 21.78 additional years¹ and a life expectancy of 36.11 years.² When Mr. Sliwak died, he was married and had three children: Nicole and Kyle who were both born on November 5, 1997 and Ryan who was born on September 15, 1993.

At the time of his death, Mr. Sliwak was employed with Cantor Fitzgerald. Based on Cantor Selected Award Calculations, Earnings Detail for Robert Sliwak, Mr. Sliwak's annualized earnings in 2001 equaled \$130,035. Beginning in 2002 and continuing through 2018, I have applied annual growth in compensation that is equal to the year-over-year percent change in the fourth quarter Employment Cost Index for private industry workers in management, business and financial occupations. The Employment Cost Index data was obtained from the United States Department of Labor, Bureau of Labor Statistics. Beginning in 2019 and continuing through Mr. Sliwak's projected worklife, I have applied a 2.5 percent annual growth rate to his projected compensation, which is equal to the average annual year-over-year percent change in the Employment Cost Index for private industry workers in management, business and financial occupations from 2001 to 2019.

¹ Based on the worklife expectancy of a 42.88-year-old male college graduate who is active in the labor force as reported in Gary R. Skoog, James E. Cieccka, and Kurt V. Krueger, "the Markov Model of Labor Force Activity 2012-17: Extended Tables of Central Tendency, Shape, Percentile Points, and Bootstrap Standard Errors.," *Journal of Forensic Economics* 28(1), 2019, forthcoming, pp. 15-108

² Based on the life expectancy of a 42.88-year-old male derived from life tables for males from Elizabeth Arias and JQ Xu, *United States life tables, 2017*, National Vital Statistics Reports, Vol. 68 No 7, Hyattsville, MD: National Center for Health Statistics. 2019.

www.analyticresources.com

Mr. John Schutty
 December 16, 2019
 Page 2 of 3

Based on a review of income tax returns filed by Mr. Sliwak and his wife, I have subtracted federal and local income taxes at 12 percent of his compensation. I have also subtracted Mr. Sliwak's own personal consumption from his compensation. I have estimated Mr. Sliwak's own personal consumption based on the size of his household. Personal consumptions as a percent of earnings equals: 9.5 percent with three children under the age of 21 in the household; 9.4 percent with two children under the age of 21 in the household; and 11.0 percent of compensation based on husband-wife households with no children under the age of 21.³

To obtain the present value (as of December 16, 2019) of past lost earnings capacity, I have accrued interest, based on average annual yields on one-year U.S. Treasuries from September 11, 2001 through December 12, 2019.⁴ To obtain present values (as of December 16, 2019) of future lost earnings capacity, I have applied a discount rate of 1.73 percent.⁵ The present value (as of December 16, 2019) of Mr. Sliwak's past and future lost earnings capacity equals \$3,239,495.

To obtain the value of Mr. Sliwak's household services, I have relied on estimates of the value of household production from Expectancy Data, *the Dollar Value of a Day, Time Diary Analysis, 2018 Dollar Valuation*, 2019. The Dollar Value of a Day estimates of the value of household production rely on the United States Department of Labor, American Time Use Survey data. To value Mr. Sliwak's household services while he is working, I have used *Dollar Value of a Day* annual values of household production. The attached Exhibit 2 displays the annual values of household production in 2018 dollars based on whether or not Mr. Sliwak is working or retired, as well as based on the ages of children in his household.

To obtain current year dollars of household production from 2001 to 2017, I have applied annual growth in compensation that is equal to the year-over-year percent change in the fourth quarter Employment Cost Index for service occupations. The Employment Cost Index data was obtained from the United States Department of Labor, Bureau of Labor Statistics. Beginning in 2019 and continuing through Mr. Sliwak's projected life expectancy, I have applied a 2.7 percent annual growth rate annual household services, which is equal to the average annual year-over-year percent change in the Employment Cost Index for service occupations from 2001 to 2019.

To obtain the present value (as of December 16, 2019) of past lost household services, I have accrued interest, based on average annual yields on one-year U.S. Treasuries from September 11, 2001 through December 12, 2019.⁶ To obtain present values (as of December 16,

³ Kurt V. Krueger, "Personal Consumption by Family Type and Household Income," *Journal of Forensic Economics* 25(2), 2015, pp. 203-220.

⁴ The yields on one-year U.S. Treasuries were obtained from Board of Governors of the Federal Reserve, <https://www.federalreserve.gov/datadownload/Choose.aspx?rel=H15>.

⁵ This is equal to the annual yield on five-year U.S. Treasuries on December 12, 2019 as reported at Board of Governors of the Federal Reserve, Selected Interest Rates (Daily) - H.15, Release date: December 13, 2019, <https://www.federalreserve.gov/releases/h15/>.

⁶ See footnote 4.

Mr. John Schutty
December 16, 2019
Page 3 of 3

2019) of future lost household services, I have applied a discount rate of 2.18 percent.⁷ The present value (as of December 16, 2019) of Mr. Sliwak's past and future household services equals \$458,994.

The attached Exhibit 3 summarizes the economic loss. As shown in Exhibit 3, the economic loss (as of December 16, 2019) equals \$3,698,489.

Sincerely,

A handwritten signature in blue ink, appearing to read "Steven J. Shapiro".

Steven J. Shapiro, Ph.D.

⁷ This is equal to the annual yield on 20-year U.S. Treasuries on December 12, 2019 as reported at Board of Governors of the Federal Reserve, Selected Interest Rates (Daily) - H.15, Release date: December 13, 2019, <https://www.federalreserve.gov/releases/h15/>.

Page 2

1995-PRESENT **ANALYTIC RESOURCES, LLC**, Woodbridge, CT

MANAGING PARTNER

- Served as an expert witness in federal and state courts, as well as in arbitration proceedings. Provided litigation support to attorneys. Have testified in federal courts in Connecticut, New York and the District of Columbia. Have testified in state courts in Connecticut, Massachusetts, New York and Rhode Island.
- Computed damages as a result of lost compensation, including wages and salary, fringe benefits, pension and stock options in wrongful death, personal injury and employment litigation.
- Valued pensions, employee stock options, stock warrants and stock appreciation rights.
- Analyzed the earnings capacity of parties in matrimonial matters.
- Conducted statistical analyses of discrimination in employment litigation.
- Computed the value of lifetime disability benefits of partially and totally disabled professionals.
- Determined the reasonableness of compensation paid to officers and employees of businesses.
- Prepared estimates of damages in antitrust matters that involved allegations of predation and monopolization.
- Analyzed competitive conditions and defined the relevant markets in antitrust cases.
- Prepared estimates of damages in trademark and patent infringement cases.
- Computed damages in contract disputes and business interruption matters.
- Conducted financial valuations of closely held firms.
- Analyzed the suitability of investments made by investor advisors on behalf of clients and computed damages when investments were not suitable.
- Investigated the existence of churning of a client's investments by a securities broker.
- Served as Project Manager on an assignment to review the methodologies used by a major telecommunications company to forecast revenues.

STEVEN J. SHAPIRO, Ph.D.

Page 3

1988-1995 INDEPENDENT ECONOMIC CONSULTANT

- Served as an expert witness and provided litigation support to plaintiff and defense attorneys, prepared estimates of lost earnings due to wrongful death, personal injury, age and sex discrimination in employment, and wrongful employment termination; computed business damages in a matter involving a breach of a business purchase agreement; estimated lost profits in a product liability action; projected future consumption expenditures in a palimony dispute heard in probate court; and estimated the earnings capacities of the parties in a divorce action.
- Senior Consultant to a New Jersey based economic consulting firm on two litigation assignments: a predatory pricing action, and an action involving fraudulent reporting of profits, “skimming” of cash, and improper profits from the sale of securities.
- Testified at a hearing held by the Motor Carrier Division of the Connecticut Department of Transportation on whether granting a livery license to a prospective applicant would enhance the public convenience and necessity. Testimony focused on issues of market definition and market structure.
- Conducted seminars on telecommunications regulation for the IBM Corporation.

1983-1987 NEW YORK TELEPHONE COMPANY, New York, NY

**1985-1987 STAFF MANAGER-REGULATORY ECONOMICS
DEPARTMENT**

- Prepared competitive analyses of telecommunications markets in New York State. Analyses included in company's response to a New York State Public Service Commission request for comments on the changing nature of competition in the state's telecommunications markets.
- Made presentations on developments in telecommunications regulation and deregulation to middle manager groups.
- Managed the activities of a leading economic consulting firm which was retained to do an economic critique of regulation of the telecommunications industry. Critique was included as part of a submission to the National Telecommunications Information Agency by the NYNEX telephone companies.

STEVEN J. SHAPIRO, Ph.D.

Page 4

1983-1987 NEW YORK TELEPHONE COMPANY (continued)

**1985-1987 STAFF MANAGER-REGULATORY ECONOMICS
DEPARTMENT (continued)**

- Developed econometric models of New York Telephone's operating expenses and costs associated with investment in property, plant and equipment. Models were used in tariff filings with the New York State Public Service Commission and the Federal Communications Commission.
- Served as a member of the faculty at the Bell Communications Research Demand Analysis Techniques course.
- Supervised a staff of two professional economists in the preparation of economic forecasts of the nation, New York State, and major metropolitan areas of New York State. Regional econometric models were estimated as part of the forecasting process.

**1983-1985 ASSOCIATE STAFF MANAGER-ECONOMIC ANALYSIS
DISTRICT**

- Generated econometric models used to forecast New York State employment, personal income, and business activity.
- Prepared economic forecasts of New York City and other local areas of New York State.
- Estimated econometric models, which were used to analyze the effects of the economic and regulatory climates on the bond yields of individual telephone companies.
- Conducted a statistical analysis of the rate of return on the common stock of AT&T and the regional telephone companies after divestiture.

1982-1983 U.S. DEPARTMENT OF JUSTICE, Washington, D.C.

RESEARCH ANALYST in the Economic Policy Office, Antitrust Division.

- Conducted industry analyses and market studies which were used by attorneys in investigations of antitrust violations and litigation.

STEVEN J. SHAPIRO, Ph.D.

Page 5

1982 REHAB GROUP, INC., Falls Church, VA

OPERATIONS RESEARCH ANALYST for a management consulting firm.

- Developed a computer simulation model used to analyze the impact of alternative compensation strategies on U.S. Navy uniformed personnel salary and fringe benefit expense.

1981-1982 DECISION RESOURCES CORPORATION (PREVIOUSLY AUI POLICY RESEARCH), Washington, D.C.

RESEARCH ANALYST for a management consulting firm specializing in public policy research.

- Developed and tested alternative econometric models of teacher salaries.
- Conducted research on the measurement of school district fiscal capacity.
- Evaluated an existing U.S. Department of Education computer simulation model designed to analyze the effects of various tuition tax credit proposals on families by income bracket.

1977-1981 ABT ASSOCIATES, INC., Washington, D.C.

RESEARCH ANALYST on a variety of studies for a leading social research organization.

- Developed an econometric model of public employment agency job placements which was used to analyze the effects of change in federal funding on individual state agency placements.
- Estimated a statistical cost model of state public employment agency administrative and overhead expenses so that alternative cost allocation formulas could be studied.
- Examined the accuracy and validity of data maintained in a major U. S. Department of Labor management information system.
